What problems did you run into? What is your plan for them?

It is challenging to write unit and integration tests from scratch. My team is now working together to write these.

What is the current overall project status from your perspective?

We are done developing. Just wrapping up the final stages of the project at this point.

How is your team functioning from your perspective?

We are functioning well as a team but sometimes lack communication.

What new ideas did you have or skills did you develop this week?

Improved testing skills

Who was your most awesome team member this week and why?

David for doing the most (and best) work.

## Plans for Next Week

Testing, bug fixes, poster, expo.
